

AUTOMOTIVE Logistic Solutions

JIT Delivery of Your Critical Components

BTX Global Logistics understands the importance of keeping your automotive assembly plants moving to meet tight production deadlines and minimize costs. Established in 1980, BTX has been providing Just-in-Time (JIT) transportation services to leading automotive manufacturing companies for several decades. With over 40 branches strategically located across North America, BTX is equipped to expedite the delivery of your critical parts and components to and from OEMs anywhere in the world.

BTX's team of logistics experts will customize solutions for your supply-chain's needs and optimize them to meet industry changes and avoid disruptions. Our state-of-the-art technology platforms provide visibility and transparency around the clock.

BTX's Services Include:

- Supply Chain Management
- Just-in-Time Delivery:
 - Domestic & Global Air Freight
 - Ground Transportation
- Cost Efficiency, Flexibility and Scalability
- Compliance and Risk Management
- Fulfillment & Warehousing
- Dedicated Customer Service
