

PREPARE YOUR BUSINESS EARLY FOR CARM'S NEXT PHASE

The Canada Border Services Agency (CBSA) Assessment and Revenue Management (CARM) initiative is underway, and will change the way your business imports goods into Canada.

U.S. companies importing goods into Canada under a duty paid basis will be required to establish a new business account in the CARM Client Portal (CCP) to manage import activities with the CBSA. Setting up your CCP account in advance will help prevent your shipments from getting delayed at the border or returned to the U.S. when CARM Release 2 goes into effect.

Although CBSA has postponed full implementation of CARM 2 until May 2024, it is suggested you create your user profile and register your business in order to familiarize yourself with CARM now.

Please click on the links below to view tutorials on how to create your login and user account, and how to link it to your business account:
